With so many ANEST IWATA spray guns to choose from, how do you know what to use?

Any one of our spray guns can be used from start to finish or general purpose use. However, ANEST IWATA specifically designs each spray gun to excel with specific coatings in mind because having the right tool for the job can equal huge savings.

Whether you're spraying primer/sealer, base coat, clear coat, water-based or solvent-based materials, ANEST IWATA's start to finish solutions will help your productivity — saving you time and money.

Where Passion, Innovation, and Creativity Meet.

#TeamIwata

FEATURED PRODUCTS FROM ANEST IWATA

Measure, mix, filter, spray and store all in one container. There's no need for multiple cups or messy clean-up.

The **ANEST IWATA Fast Flow System Sealed Spray Cup** gives you an enhanced painting experience. Engineered for effortless use and material savings, the FFS Cup offers quick, easy paint preparation and clean-up, saving you money, time and materials.

The FFS Spray Cup features a wider lid opening, allowing for a smooth fast flow of material.

The durable, reinforced liner minimizes the risk of puncturing while mixing and ensures a tight fit to prevent leaking while spraying.

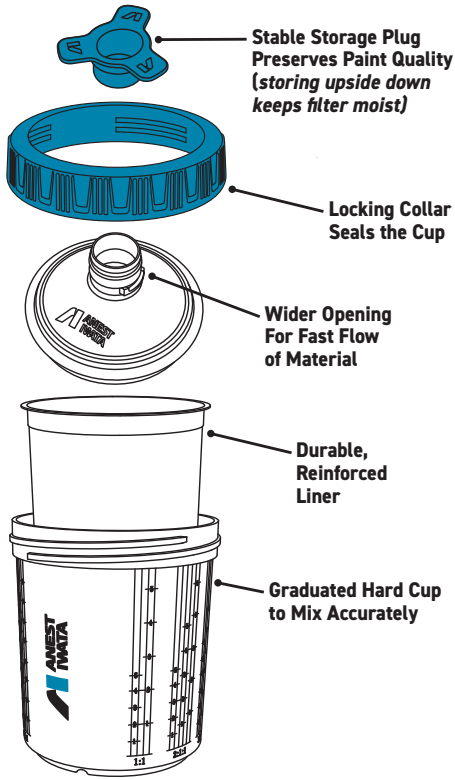

The stable storage plug allows you to invert your cup when temporarily storing your paint to ensure the filter remains moist, preserving the quality of your paint and minimizing waste.

WS-primer

GREAT FINISHES START WITH A SOLID FOUNDATION

Scan to Learn More

PRIMER

Primer application is often treated as just a step before sanding, but the right equipment can make a major difference. WS-Primer technology improves performance through higher transfer efficiency and controlled atomization. This allows primer to lay down smoother and flatter, improving material placement and reducing overspray. The result is a primer film that requires less sanding and rework, saving time and labor.

Delivering a uniform primer film that requires less correction during sanding stages, reducing overall labor and abrasive consumption.

SEALER

A properly applied sealer plays a critical role in the overall finish. A smooth, uniform foundation before basecoat is essential for consistent color, coverage, and final appearance. The WS-Primer delivers high transfer efficiency, placing more material on the panel with minimal overspray. This allows for proper coverage with fewer passes while maximizing material usage. Its refined atomization produces a smooth, even film that creates the ideal surface for basecoat. The result is a cleaner, more consistent foundation that allows the basecoat to perform at its best.

Improved efficiency and pattern uniformity during application allowing for a cleaner, more consistent foundation so your basecoat can perform at its best.

UV

Engineered with smaller nozzle sizes and outstanding atomization performance, this system is designed to maximize UV primer efficiency. Combined with a full line of UV accessories, it helps keep repairs moving and productivity high from start to finish.

Fine atomization delivers thin, uniform coverage for a quick seamless workflow.

FEATURED PRODUCTS FROM ANEST IWATA

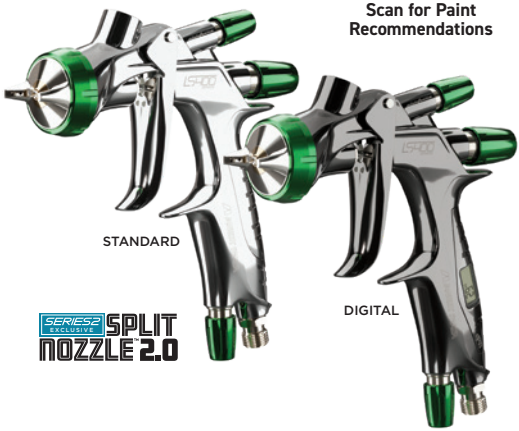

SERIES2

Scan for Paint Recommendations

LS400 SERIES2 BASE

The ANEST IWATA LS-400 Series 2 Base is a premium HVLP spray gun featuring optimized, uniform coarse atomization — perfect for solvent or waterborne base coat applications with a variety of nozzles, giving it the ability to perform in all climates and conditions.

Optimized, uniform coarse atomization for standard/waterborne first gen base coats.

WS400 SERIES2 BASE

The compliant ANEST IWATA WS-400 Series 2 Base was designed with the future of wet-on-wet waterborne technologies in mind by delivering a faster, coarse, center wet core with optimal material control. It's offered in a variety of configurations allowing you to match your spray gun to your specific product line and environment.

Fast, coarse, center wet atomization for second gen waterborne technologies that require wet-on-wet applications.

WS400 SERIES2 CLEAR

The compliant ANEST IWATA WS-400 Series 2 Clear is the new standard for clear coat perfection with its fast, high-delivery fine atomization. This spray gun makes achieving anything from an OEM finish to a perfect glass-like finish easy while saving materials, time, and energy.

Fast, high-delivery fine atomization for clear coats.

PRIMER/SEALER

W-400-LV-WBX

NORTH AMERICAN EXCLUSIVE

The W-400-LV-WBX was developed specifically with a high-end, flawlessly finished primer/sealer coat in mind. The WBX operates at low air pressure while maintaining a wide fan pattern and excellent transfer efficiency; translating to less rework, which saves you time, materials, and ultimately money.

AIR GUNSA AZ3 HTE-S IMPACT

The HVLP AZ3 HTE-S IMPACT is for anyone looking to achieve a great finish at an affordable price. This entry-level spray gun is offered in a variety of nozzle size configurations.

BASE COAT/GENERAL

LPH-400-LVX

The LPH-400-LVX (orange cap) is perfect for the entry-level painter as well as the seasoned automotive refinisher. It is one of our most versatile offerings. The LPH-400-LVX takes on almost any solid, metallic, or pearl and delivers perfection every time.

WBX SPRAY GUN KITS

9278

9279

Featuring the North American exclusive W-400-LV-WBX spray gun, the WBX kit offers versatility and ANEST IWATA's proven Split Nozzle Technology. The WBX gives users a fast, smooth, even, flat finish.

Blue Kit (9278) Includes:
W-400-LV-WBX 1.3 Gravity Compliant Spray Gun, 1.5 Nozzle (use with 1.3 needle), 1.2 Nozzle Needle Set, 700 ml Aluminum Gravity Cup, Air Regulator, Spray Gun Lubricant, Brush, Wrench

Red Kit (9279) Includes:
W-400-LV-WBX 1.8 Gravity Compliant Spray Gun, 1.5 Nozzle Needle Set, 1.3 Nozzle Needle Set, 700 ml Aluminum Gravity Cup, Air Regulator, Spray Gun Lubricant, Brush, Wrench

BASE COAT / CLEAR COAT

LPH-400-LV

The LPH-400-LV (silver cap) features fine atomization which is perfect for clear coat and single stage paints. It also sprays a variety of different base coats. This gun is perfect for the entry-level painter as well as the seasoned automotive refinisher.

W-400-LV

The W-400-LV is a great choice for clear coat and single stage coatings. This conventional (non-HVLP) spray gun is EPA Compliant for those who want the best of both worlds in terms of great transfer efficiency and superior atomization.

TOUCH-UP/SPOT REPAIR

LPH-300

This compact, lightweight HVLP spray gun is a great choice for medium and small repairs in-house and on-site spot repair. The combination of excellent transfer efficiency and fine atomization also make it a great choice for sealer.

TOUCH-UP/SPOT REPAIR/ CUSTOM GRAPHICS

LPH-80 COMPACT HVLP

The LPH-80 is an extremely versatile compact spray gun that features low material usage, very fine atomization, and low air pressure consumption. Perfect for touch-up and small surface area work.

FLEET APPLICATIONS

AZ1-HVLP CONCEPT Pressure

The AZ1-HVLP CONCEPT pressure gun is part of our Air Gunsa line. It's an excellent entry level choice for fleet applications. This versatile gun offers a range of air caps that deliver a long flat pattern even when spraying heavy coatings.

WIDER 1-2-1L-2L

WIDER models are an upgrade in design, styling, and technology from ANEST IWATA. The WIDER gun design produces consistent, repeatable results. With easy maintenance and intuitive quick adjustments, you'll save time and save money.

PRESSURE POTS & PUMPS

We offer a variety of pressure pots and pumps for any of your fleet application needs.

DPS Double Diaphragm Pumps

ACCESSORIES

ANEST IWATA SPRAY GUN CABINET

PG-1A

This cabinet comes with a variety of spray gun holders to suit your different Anest Iwata spray gun needs. It can house up to 24 spray guns and has storage space for your accessories. This premium cabinet is made from high-quality steel with a powder-coated finish and features a digital lock and keyed entry to keep all of your equipment safe and secure.

20 x 30 x 12 inches, wall mount
