

- Enhanced paint flow with a wider opening
- Reinforced liner maintains structural integrity preventing material entrapment
- Stable storage plug for temporarily storing unused paint upside down
- Mix, paint, and store in one container

Effortless Setup. Flawless Results.

Sealed Spray Cup System by ANEST IWATA

The ANEST IWATA Fast Flow System offers a comprehensive solution for professional painters, providing an efficient, reliable, and mess-free painting experience. Designed with durability and ease of use in mind, these cups allow users to mix, paint, and store all in one container, streamlining the painting process and reducing cleanup time. Featuring reinforced liners, enhanced paint flow, and a convenient storage plug, the system is ideal for automotive refinishers, industrial painters, and anyone looking for consistent, high-quality results.
