

FAST FLOW SYSTEM SEALED SPRAY CUPS

FFS

FAST FLOW SYSTEM™

Measure, mix, filter, spray and store all in one container. There's no need for multiple cups or messy clean-up.

The ANEST IWATA Fast Flow System Sealed Spray Cup gives you an enhanced painting experience. Engineered for effortless use and material savings, the FFS Cup offers quick, easy paint preparation and clean-up, saving you money, time and materials.

The FFS Spray Cup features a wider lid opening, allowing for a smooth fast flow of material.

The durable, reinforced liner minimizes the risk of puncturing while mixing and ensures a tight fit to prevent leaking while spraying.

The stable storage plug allows you to invert your cup when temporarily storing your paint to ensure the filter remains moist, preserving the quality of your paint and minimizing waste.
