

iCon[®] FLATLINE

- Seamless Integration
- Easy to Maintain
- For Water and Solvent-Based Coatings
- Available in 32:1 or 36:1

The Backbone of Superior Finishing.

The iCon Flatline Pump comes in 32:1 and 36:1 configurations, suited for water and solvent-based coatings. It ensures consistent performance with multiple automatic guns for efficiency. Self-adjusting packings reduce maintenance by protecting the piston, while an external filter and recirculating valve simplify priming and cleanup. For precise pressure control, an optional high-pressure regulator is available. Optimize your painting process with the iCon Flatline Pump.
