**MSGS-200 120S**  
Short filter  
Max fluid pressure  
120 bar / 1740 psi

The ANEST IWATA MSGS-200 Multi Spray Gun series offers high performance and versatility, making it ideal for various applications. Combining Airless and Conventional spray technologies delivers speed and unparalleled finish quality. Feather-light 3.5lb Trigger on 120 models is the lightest in the industry, significantly reducing operator fatigue. Tip holder will accept spray tips from multiple manufacturers. The MSGS-200 is offered in Standard (1,740 psi) and High-Pressure (3,626 psi) versions and both Long and Short filter options are available.
