

TRANSFORM YOUR AUTOMATIC SPRAY LINE SYSTEMS

introducing the
**MSGS-M200
AUTOMATIC
MULTI SPRAY GUN**

- Superior Atomization Delivers World-Class Finish Results
- Tool-Less Access for Easy Maintenance
- Seamlessly Integrates with Popular Fixtures
- Versatile Air Cap can Accommodate Multiple Tip Styles

The MSGS -M200 Automatic Multi Spray Gun by ANEST IWATA is our newest addition to our air assisted product line. This MSGS-M200 spray gun offers superior atomization, delivering world-class finish results and minimizing the need for rework. Setting itself apart from the competition, our spray gun operates at a lower air pressure, resulting in reduced air consumption, increased utility savings, and decreased overspray. With convenient tool-less access to the needle and piston, maintenance becomes a breeze. The versatile air cap accommodates various tip styles, while the manifold seamlessly integrates with popular existing fixtures, simplifying the conversion process.
